# INTRODUCTION

Established in 2005, AL-HADI INTERNATIONAL was registered specifically to provide state of the art Heating, Ventilating and Air-Conditioning (HVAC) and Fire Safety/Protection Solutions & Services for Government/Non-Government and Commercial setups nation wide.

AL-HADI INTERNATIONAL has continued to strive towards becoming a complete multi-disciplinary HVAC and Fire Fighting practice offering our Clients the specialist individual attention and solutions required by an ever-changing project environment. AL-HADI INTERNATIONAL sees teamwork on every project as the key success element and is responsible for creating this environment. The overall project manager is duty-bound in ensuring efficient and regular communication to all stakeholders and at all levels.

AL-HADI INTERNATIONAL is equipped with the latest technology and has the necessary staff and resources to ensure the best professional service is provided at all times. The firm is an active voting member of Pakistan HVACR Society and Islamabad Chamber of Commerce & Industry

Our vision is to grow into multiple disciplines in order to offer a broad spectrum of specialist MEP services to become our Clients' preferred *Professional Service Provider* (PSP) choice through excellence and efficiency in all aspects of the project life cycle. Whether it is a Fire Fighting/Alarm System that is required, or an HVAC Project or a Building Management Systems needs to be in place, AL-HADI INTERNATIONAL will lead as a service provider that will exceed expectations and set new standards!

In one sentence, “***Safe, Healthy and Prosperous Pakistan***”. Our Mission is to offer excellent service in each of our professional disciplines, in accordance with statutory practices, codes of conduct and integrity, thereby developing our team and providing a leading platform from which to serve our valued Partners (Clients).

**Integrity:** We conduct our business with the highest standards of honesty and fairness. Working with dependability, flexibility and uncompromising work ethics has earned our customer's trust in us.

**Quality:** We pursue excellence with purposeful determination towards service and exceeding client's expectations.

**Teamwork:** We build teams matching with specific project requirements and finding the right people for the job. Our criterion in such selection has always been to choose hardworking, honest, fair and dependable work force that is committed to work according to our uncompromising standards.

**Communication:** We strive to build and maintain open lines of communication within the organization, with our clients and others. We believe communication builds trust, which is the soul of every operating business.

**Relationship:** We strive to build an environment that allows our people to grow and succeed; that gives priority to our clients' specific objectives and that seeks to develop long-lasting relationships.

**Continuous Improvement:** We believe in the continued enhancement of our standards by following technology, self-initiation, and most of all, our past experience.

## Process & Operating Principals

The following principles guide the attitude, character and behavior of our people and are integral part of our culture.

- We strive to treat others with respect and wish to be treated in the same manner.
- We strive to create a safe “injury free” and mutually respectable work environment.
- We set measurable goals and strive to achieve them.
- We try to be fair, firm and consistent in our working.
- We listen to each other and try our best to comprehend other’s point of views.
- We strive to be timely, open and honest in our communication and commitments.
- We promote ourselves with pride.
- We strive to be good Pakistani Citizens.

Teams are built by combining the strengths of the individual members and refining skills to meet and exceed the Client's expectations.

AL-HADI INTERNATIONAL is equipped with the latest technology and has the necessary staff and resources to ensure the best professional service is provided at all times.

We have Specialized & Skilled Staff for the Designing, Supply, Installation, Testing and Commissioning of various Fire Protection, Alarm and Safety Systems. Dedicated team of trained Professionals is just a phone call away for the maintenance or in case of any emergency.

Further we also undertake Annual Maintenance Contracts. This ensures the smooth function and accuracy of the System throughout the year.
